CREATIVE THINKING

Developing innovating solutions to problems using multiple perspectives.

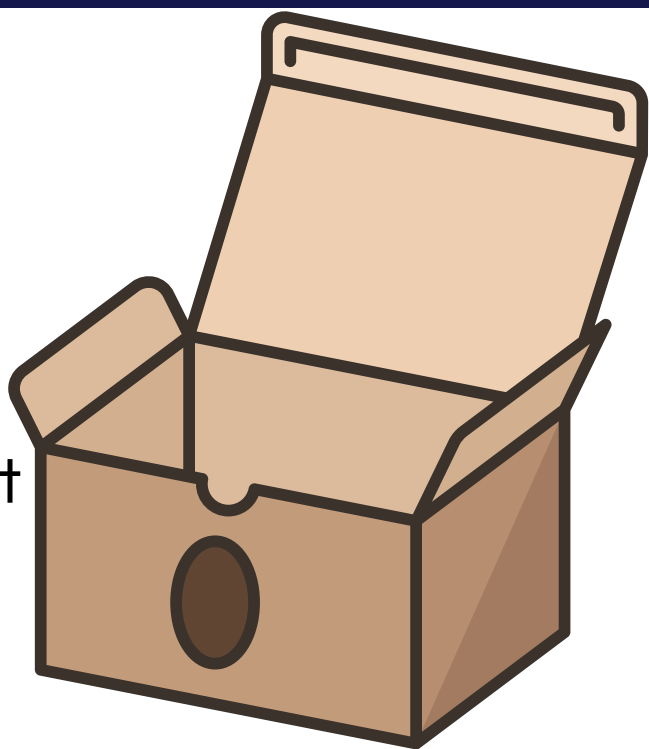

WHEN TO USE IT?

When brainstorming novel answers to a question or thinking of how to tackle a new process. Creative thinking often takes place within research, communication, and art, among other fields.

HOW DO I USE THIS IN MY CLASSROOM?

Go beyond "thinking outside the box." Instead, try imagining that you and your resources are in a box. Get creative with how to use what you have to solve a problem or answer a question!

WHY USE IT?

Thinking creatively encourages learners to expand their skill sets in new and unexpected ways to meet (or exceed) learning outcomes.
