

What's the Buzz Infographic

Buzzwords in Education Explained

Dive in! Examine popular teaching approaches. Discover how to apply the strategy and eliminate misconceptions about these trending buzzwords.

### **Backward Design**

"Start with the end in mind." Use learning outcomes and assessments as guides to select the best teaching strategies.

#### **When to use it?**

Throughout the design of the course. Keep your outcomes in mind so you know where you are taking your learners. This will ultimately result in a well-thought-out path to get the desired end result.

#### **How do I use this in my classroom?**

For each outcome, write an assessment. Then identify what information and skill students need to ace that assessment.

#### **Why Use it?**

By starting with the finish line in mind, you can design a path that gets students to where they need to go.
